How many times have you heard terrible news and exited your positions, only to watch the market continue moving up and up without your participation? ...How many times have you stayed in losing positions too long to cut your losses short? ...

These losses may have seemed tragic to you when they happened - but here is the real tragedy: Many of these problems are unnecessary! Do you know that for every major market turn, AbleTrend7.0, the award-winning trading software, provides a specific buy/sell signal? Just like a barometer, it gives a big blue dot for a buy signal, and a big red dot for a sell signal. Only AbleTrend trading algorithms have been validated by three decades of rigorous back-testing, making them reliable for use in real trading.

Only AbleTrend has won Stocks & Commodities magazine reader's choice awards, for three* trading systems, 17 years in a row.

*including stock trading systems, futures trading systems & option trading systems

10 reasons why more and more investors trust AbleTrend to make their trading decisions

1. AbleTrend identifies trend changes instantly

Here are two charts of the same data with and without AbleTrend signals. The top is a plain chart, and the bottom has AbleTrend added.

AbleTrend identifies trend direction by color:

Blue signals an UP trend,
Red signals a DOWN trend,
Green signals a SIDEWAYS market.

“I have found that the most important things in trading are 1. finding the trend early. 2.SUPPORT and RESISTANCE in real time and 3. entering on retracements, which is about controlling losses. Also, STAYING IN THE TREND. Your software shows me how to do these things with precise accuracy and elegant simplicity. The software you have developed has the most accurate support and resistance levels I have seen. They will indicate the pivots in advance, a feature that alone is worth the price.”

— John Meyer MD. GA

“AbleTrend signals takes the uncertainty and stress out of my trading. Winning trades are allowed to run their course while losing trades are cut short every time! I am very, very happy with this software. The training seminars were especially helpful, clear and easy to understand.”

— E. S., Santa Barbara, CA

“My recommendations are based on positive feedback from existing clients. AbleTrend is time-tested, outperforming competitors for more than seven years.”

— S.W. eSignal

2. AbleTrend's unique algorithm is proven and dependable

AbleTrend has proven itself through the toughest markets in the last three decades

Black Monday: October 1987

The crash of the S&P 500 resulted in major market panic. AbleTrend gave the early sell signal days before the crash.

Dot Com Bubble Burst: 2000

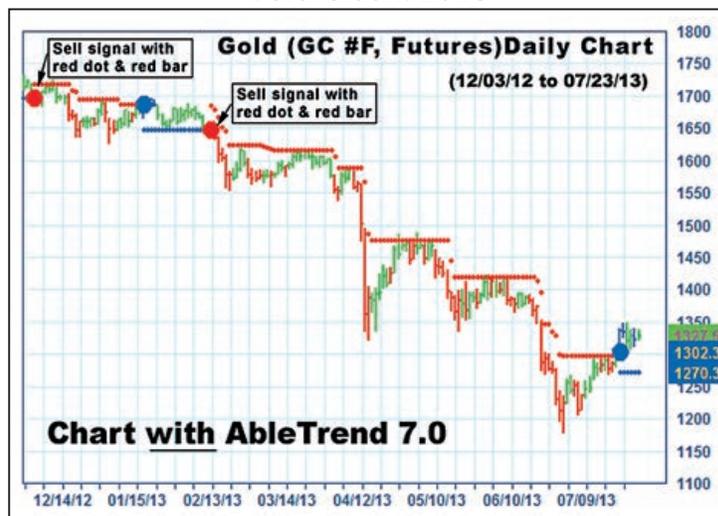

Through the 90's the markets continued to make new all-time highs, until they crashed in 2000. AbleTrend helped traders on the way up, and on the way down.

Financial Crisis: 2008

Following the Dot Com Bubble, equity markets recovered to record highs. But then, once again, the market crashed. "This time was different" but AbleTrend protected its users with an early warning signal.

Gold Crash: 2013

Gold ran up to \$1900/Oz in 2011, but dropped from 1800 to 1180 in these last 12 months. Many big hedge funds missed the right time to exit. They would have done differently with help from AbleTrend!

"The AbleTrend system is phenomenal, it is a relaxing way to trade. I trade the ES, it shows me where to enter and where to place my stops. Most days I place one or two trades, today, one trade profit of 33 pt. on ES. Nice for a 75 year old retired rancher. Thank you AbleSys."

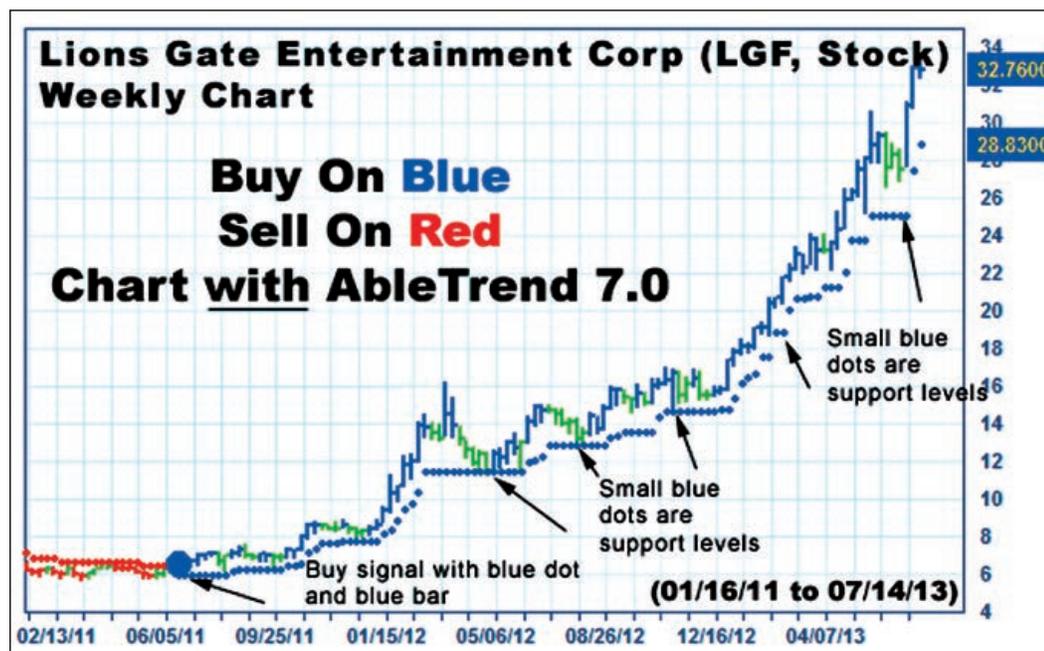

— Steve Lyons, UT

THESE RESULTS ARE BASED ON SIMULATED OR HYPOTHETICAL PERFORMANCE RESULTS THAT HAVE CERTAIN INHERENT LIMITATIONS. UNLIKE THE RESULTS SHOWN IN AN ACTUAL PERFORMANCE RECORD, THESE RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, BECAUSE THESE TRADES HAVE NOT ACTUALLY BEEN EXECUTED, THESE RESULTS MAY HAVE UNDER-OR OVER-COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED OR HYPOTHETICAL TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THESE BEING SHOWN. THE TESTIMONIAL MAY NOT BE REPRESENTATIVE OF THE EXPERIENCE OF OTHER CLIENTS AND THE TESTIMONIAL IS NO GUARANTEE OF FUTURE PERFORMANCE OR SUCCESS.

How many times has fear made you exit the market too soon and miss the big move?

3. Objective Support and Resistance Levels

Being able to identify an early trend is amazing, but even more remarkable is having AbleTrend show you where to place your protective stops before you even enter the market, You know the exact reward/risk ratio ahead of each trade, based on our objective support and resistance levels.

Small blue dots below the bars are support levels defined by AbleTrend for buy positions. AbleTrend support levels are designed to help you stay in the big move with minimum risk, and avoid getting stopped out too early.

Many times, markets just test support levels before resuming the trend on a large scale. If you know where the support levels are, you can watch the market as it tests the support levels with ease. You will not be scared and prematurely exit the market, but will be able to continue to profit as the market goes up. That's exactly what AbleTrend provides. AbleTrend support levels are dynamic and automatically adjusted by the software as prices change. Because they are determined by the actual market conditions, they are:

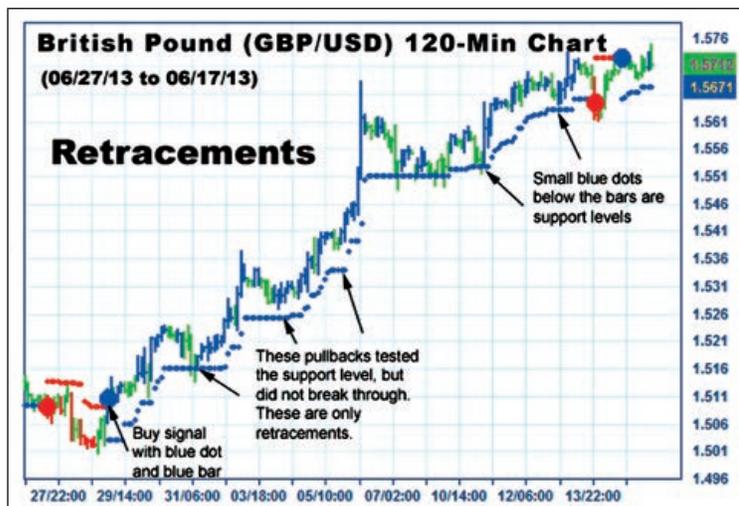

1. Objective
2. Back-testable
3. Visual and easy to use
4. Reliable in real trading

“AbleTrend stops have saved me a bundle of money. The blue dots show me where to place my stops even before I open my position. Since AbleTrend stops are dynamic, I was able to know my objective stops constantly. Consequently, I have been able to trade more aggressively. I trade 30 contracts of E-mini S&P and I wouldn't trade without AbleTrend.”

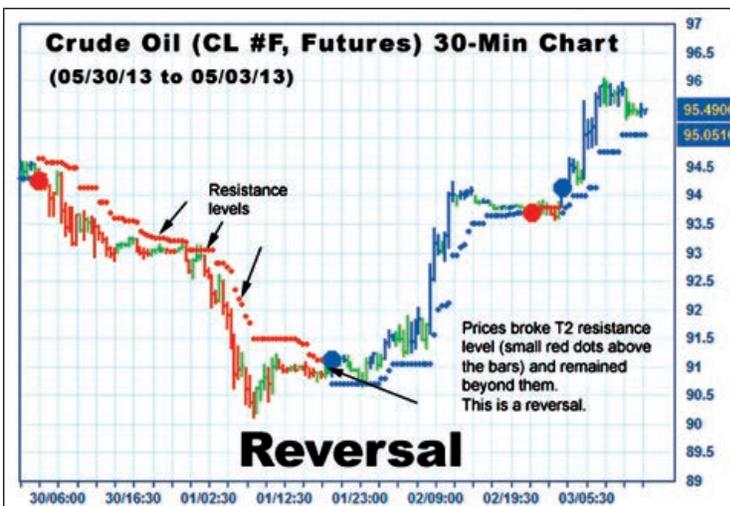

— G. R., Austin, TX

Underwater on a trade? You need to know how far is too far, and whether the current pull back is just a retracement or if it's a reversal.

4. Scientific support levels help you to distinguish a retracement from a reversal

These pull backs tested the T2 support levels but did not break through, therefore they are only retracements

Prices broke the T2 resistance level (small red dots above the bars) and remained beyond them. It's a reversal. The trend has changed its direction!

Once you know the true market support levels, you know where you stand. You know when to be cautious, and when to let go and let your profit run. If you had AbleTrend at your fingertips, you would always know exactly where the market's true support levels are.

Then you could:

- Be able to "sit tight" and sustain your position during the market testing, and enjoy the market when it soars;
- Exit the market when it breaks the support levels (the small blue dots below the bars) and cut your losses short.

If you do not know the true market support level... then fear will drive you out of market when you should stay, or you will stay in the market too long with losing positions. It's as simple as that. If you can read the chart with support levels, you could do better than most fund managers and save a bundle in service fees.

Do you know someone who has lost thousands of dollars in trading, but who was not willing to spend \$99 for time-tested trading signals? 15 years ago, people would say what an advantage it would be to have AbleTrend! Today one would say what a disadvantage it is not to have AbleTrend...

5. Real-Time AutoScan

Through the years, traders have expressed their wish to perform AutoScan in real-time. Now with AbleTrend7.0 this dream becomes a reality. You will be able to receive instant alerts for your day trading!

6. AbleSys is a CTA firm registered with CFTC since 1995

What is a CTA firm?

A CTA firm is a Commodity Trading Advisor (CTA) firm registered with CFTC.

What is CFTC?

CFTC is a government regulatory body. Its mission is to protect market users and the public from fraud, manipulation, and abusive practices related to the sale of commodity and financial futures and options, and to foster open competitive and financially sound futures and option markets.

How do You Protect Yourself from Fraud?

It's important to select trading software from companies that are registered with CFTC. AbleSys has been registered with CFTC since 1995 with an excellent record. Also, check to see if a company offers a one-month trial. Normally, if the software does not work, the company will not offer a trial. Dishonest companies would prefer to collect thousands of dollars up front. Beware!

7. AbleTrend has won Stocks & Commodities Magazine Reader's Choice Awards for 17 years in a row

Only AbleTrend has won Stocks & Commodities magazine reader's choice awards of triple trading systems for 17 years in a row. This is no small achievement. Every year, countless new trading software systems hit the market. AbleTrend has stood the test of time. AbleSys does not make any outlandish claims – we don't have to! Our countless satisfied users around the world are our best source of advertising.

8. For the cost of one system (Real-time Deluxe), AbleTrend empowers you to trade all markets, in all time frames

Many companies sell trading software on a module-by-module basis. For example, if you trade stocks, and a few different commodities, you would need to pay a fee for stocks and for each commodity. That could quickly add up to tens of thousands of dollars. However, with AbleTrend, you only have to buy one system to cover all your trading

needs. Once you learn how to trade one market, you will know how to trade every other market with AbleTrend. AbleTrend knows no bounds; it goes wherever the profit can be found. With today's global economy and great volatility, opportunities are limitless.

9. FREE one-on-one consultation

Hiring a private consultant to help you build a life-time skill in managing your own financial assets could be expensive – very expensive. That's why our free, value-added one-on-one consultation service makes owning AbleTrend software a cannot-miss opportunity. So don't wait another day to discover the power of AbleTrend 7.0 for yourself. To activate your 30-day trial immediately, call us toll-free at 888-272-1688 right now.

Or visit: www.ablesys.com/b53

10. AbleSys offers interactive webinars every day

Register FREE at: www.ablesys.com

- * Webinars for the general public are held Mondays at 4 pm, Wednesdays at 7 pm, and Fridays at 2 pm EST.
- * Continuing education webinars for members only are held Tuesdays and Thursdays.

Bring your own symbols and find out what AbleTrend 7.0 says about your positions. Learn if any buy/sell signals have occurred. Identify support levels. And get the answers instantly! Whether you trade stocks, commodities, FOREX, the E-minis, or the ETFs . . . whether you prefer day trading, swing trading, or position trading . . . you will see results on the spot.

ABLESYS OFFERS A 30-DAY "TEST DRIVE" OF THE ABLETREND 7.0 SOFTWARE

The only way to determine whether AbleTrend 7.0 fits your trading style is to try it out for yourself. That's why, for a limited time only, we invite you to "test drive" AbleTrend 7.0 for the next 30 days at a special price (see page 8). We would not offer this 30-day trial if we weren't certain that you will love AbleTrend once you give it a try. We do not want you to become an AbleTrend user unless you are really convinced that it will help you make money in the markets. AbleTrend users tell us our support is the best in the industry. You can call us toll-free phone for assistance, including one-on-one phone consultation.
